

I am requesting that you don't allow the LPFM stations to take priority over current FM translator service. Let me explain my reasons. I have been listening to K-LOVE radio station for over a year. The daily spiritual encouragement I get from this radio station cannot be found anywhere else on the airwaves. Due to the encouragement and the bible verses I am better parent, spouse, co-worker, sister, daughter. Just a better citizen in general since I am reminded of God's great love for me. This radio station encourages Christians and non-Christians alike. It helps people turn to Christ and keeps the listener focused on God's sovereignty no matter what time of the day you tune-- 24/7. Before I started listening to K-LOVE it was hard not to be cynical. I thought the world was just a violent, non-caring world where people were out for number one. Well, it's not like that at all. Listeners can call and ask for prayer requests, and K-LOVE is staffed by caring pastors who take the time to talk to people. Where would these people turn to? Some of these listeners do not have a church to turn to. Please reconsider the impact to 2 million listeners if you decide to change the current set up for K-LOVE radio station.
